- They like the scroll down interface
- Too much clutter -> fewer pages is good
- Focus on event/careers more than about us
- Try to avoid drop downs
- Four major sections
  - About us
  - Careers
  - Events
  - Membership
- They don't like banner pictures that take up a lot of the screen
- Like the "accordion" format for jobs page possibly events too
- They don't have access to many images for job postings
- About us info not that important
- They liked victors and Lels layouts and Yxiu's content
  - Prefer one column over multiple
  - Mobile design on desktop is good
  - Don't like sub pages, prefer to scroll
- The smallest sitemap was very good but may have been too simplified. Could build on that
- The other two had good reorganizations of content but could be cut down more.
